SINCE 1850

ROMARIZ. TIMELESS BY NATURE.

SINCE 1850

A HERITAGE REUNITED

Quinta da Boeira was built by an emigrant named Manuel da Rocha Romariz, who returned from Brazil in the beginning of the 19th century. With a profound knowledge of the Brazilian market, he registered himself as a Port wine exporter in 1850 with the brands BOEIRA and ROMARIZ.

ROMARIZ quickly earned the trust and consideration of consumers and distributors due to its quality and expanded into several markets worldwide.

In 1966, when the property was sold, the ROMARIZ brand followed a different path, remaining with the acquiring company. More recently, however, it returned to its origins, rejoining Quinta da Boeira — the house where it was born.

DOURO VALLEY

VILA NOVA DE GAIA · UNESCO WORLD HERITAGE LANDSCAPE

Our wines are born on the steep, terraced slopes above the Douro river, where schist soil forces each vine's roots deep in search of water and mineral character. The grapes are vinified in the Douro and aged in our cellars in Vila Nova de Gaia, where the Atlantic climate lends the wines their smooth, elegant maturation.
